June Meeting Minutes

Roll Call: 29 Members present
Guest: 2

Treasurer Report: The report is not printed online. If you need a copy contact Gene Moore

New Members:
Old Business:
None

New Business:

New Lock: John installed a new lock at the entrance gate. It is red with gold "TSRC" letters. The combination is the same. As we've mentioned many times before if the gate is open and it is NOT our lock then you don't have to worry about locking the gate, but if the gate is locked and you open our lock to get in then you must lock it after entering and leaving.

Signs on transmitter stand: You will notice there are some new signs on the transmitter stand. One is the Club logo, the second is the AMA rules and the third is the Club field rules. Shortly there will be another sign which will be a schematic layout of the field. There is now no reason for anyone flying at the field to not know what the club rules are.

Speed reminder: Now that the rain (what little we had) has stopped it is dusty on the access road. This is a reminder to keep your speed DOWN to prevent dust and mites getting blown onto the crops. **AND the only entrance into our field is through the entrance off Durham-Ferry this includes any guests that you invite. Make sure they know what entrance to use.**

Spectrum/Ham fliers: This is just a reminder that if you fly Spectrum or Ham you are still required to affix your membership card to one of the orange clips on the transmitter stand.

Helicopters: A helicopter pad was poured north of the pit area and is now usable.

Non-members using our field: Recently, there have been some non-members using the field. Unless they are with a Club member they are trespassing. If you encounter one of them do not attempt to engage them or get in an argument about their use of the field. Just note their license plate number and provide it to John or one of the other board members who will then contact the S.J. Sheriff's office.

New Garbage Can: We have a new garbage. There is still times where there is garbage on the ground or in the BBQ. Please use the trash can.

Be a considerate flier: Please be considerate of your fellow fliers. We should all be able to get along out there and fly without incident. There is plenty of room to fly – this includes both fixed winged and helicopters. There are 5 stations plus 1 helicopter pad. The helicopter pilots are allowed to use one of the fixed winged stations but in doing they should be aware of fixed winged pilots who may need to use the runway for takeoff and landings.

Club Membership is FULL: The club is full (we now have 96 members). If anyone is interested in joining we are putting those names on a waiting list.

CLUB PICNIC & BBQ: The Club will be hosting a picnic and BBQ following the July 1st Club meeting. This is for members and their families. The Club will provide the food and drink. Mark will be sending out an email with more info in the next week.
